I am a 3D artist who loves to create stories in the 3D world. With a great understanding of material, composition, and colors, I visualize ideas in the real world. I love to write stories that have unique environments and characters with strong relationships. I also enjoy modeling environments containing plants and small details. I am a fast learner and use various 3D programs.

Education

Pratt Institute *Brooklyn, NY*

B.F.A Digital Arts 3D animation *2021-2024*

Experience

Graphic Designer at StudioPAV

Aug 2024 - Current

- Designed tour poster, fan badges, and tickets for various KPOP artists such as DKB, K.A.R.D, and Billie. Used distinctly different colors and shapes to match each group's theme.
- Created promotion videos, q&a videos, introduction videos for KPOP artists such as B.D.U, Weekly, and EVNNE to advertise coming tours and encourage fans' engagement.
- Created graphic designs for StudioPAV's official instagram to give information of newly coming tours, ticket prices, different benefits for each tiers, fan schedule, and fan events.
- Communicated with local print shop during the process of printing Official merchandises such as t-shirt, jersey, and caps. Provided precise size dimensions and pantone color codes to match the actual product with the image shown to fans.
